

School of X

Next generation schools remove waste and transform reporting using Xvoucher®.

Many schools were seeking a way to improve how they manage their certification vouchers. They require a simple solution to buffer the varied requirements of the numerous certification bodies. Through membership with organizations such as CompTIA and CyberWatch they have found an answer with Xvoucher®.

"We have been purchasing certification vouchers since 1999 and have seen many purchasing processes. Xvoucher® is the first fully automated tool to simplify this time consuming and inefficient process - saving us money."

Jack Drooger, Hagerstown Community College

"Having this has been really great. I now have a place to send students who asked me about discounted vouchers. In the past, I had to either tell them "no", or I had to sit down with them to use my CompTIA CAPP membership number and order the voucher for them. Also I like the administration aspect of it...and I don't have to worry about the 1 year limit anymore."

Jeff Tjiputra, UMUC

BENEFITS

Utilizing Xvoucher® has completely removed manual distribution processes involving paper vouchers, students physically obtaining vouchers and manual tracking. No longer can vouchers be lost, stolen or the classic..."the dog ate it".

Now purchasing, distributing and tracking certification exam vouchers is completed with the click of a button.

- **24/7 Access** for students to obtain to their certification voucher(s)
- **Central Distribution** for professors and administrators to distribute by student, class or upon request
- **Real Time Information** for the schools. The who, what and when for all certification activity.

Flexible Purchasing so schools can buy bulk vouchers or students can directly purchase via credit card - *including exam retakes.*

- **Reduce Waste** by dynamically reclaiming unused, distributed vouchers. Some schools have *saved up to 40%.*
- **Grant Usage** demonstrating financial compliance with spending requirements.
